8:30 – 8:45 *Welcome*

8:45-9:15 *“Building Bridges With Unicorns” – a Painter’s Journey*
– Nan Thibert

As a gifted Indigo Child herself, Nan will define her struggles, indicative of the struggle of many of today’s gifted children, and the difficulties encountered relating to and succeeding in the old paradigm. Her inspiring conscious return to a path of love: a theme you will hear often this weekend in many forms: allowed her to listen to the call of her heart and the Unicorns.

“In a world where there is little room left for artists, let alone artists who paint fantasy creatures, it has been a journey from my head to my heart, where these loving, innocent and pure creatures reside.”

Nan’s powerfully energetic Unicorn Paintings will enhance the Building Bridges Conference, assembled on display for the first time at a Gathering of this size.

9:15 – 11:15 - *“Giving Hope and Strength To The Children”*
Kanoakalani and Keolamaikalani

So Many Children today in all western societies are feeling inadequate, fearful, angry, misunderstood and are losing hope in the future all too quickly. More and more highly intelligent and gifted children, diagnosed as having “Learning Problems” are turning in desperation to addictions such as drugs; violence; promiscuity; the gang culture offering the only viable form of acceptance for many more. Tragically, it appears that rising numbers contemplate and even commit suicide.

Parents, Teachers and Caregivers, Social Workers and Law Enforcement Agencies are feeling exhausted as they fight to help these young ones find their path in today’s world.

Today, however, we will celebrate the learning of practical tools which have been implemented in Hawaii that are making a measurable difference to the coping skills of these children and are offering them solutions that they, their teachers and families had given up on even dreaming of. In this absorbingly creative interactive session you will learn:

- **How important it is for any child to understand Their Genetic Heritage ...Their Roots**
- **How children are being taught to greatly expand their awareness using the Hawaiian Hakala Technique. This has clearly shown increased performance for these children in school; giving them lifetime skills to handle pressure, not only in school but in their home and social environment.**
- **How “eye movement patterns” can eliminate negative thinking and give the children a tool they can use to deflect the impact of verbal abuse from adults and peers alike.**
To realize how easily these techniques can be implemented we ask that you practice them throughout the rest of the day and notice how quickly you start to feel a shift in your own perspective.
- **Phobias!! ... Children can have many phobias such as fear of the dark; fear of Spiders, Snakes, Heights etc. These phobias can have a crippling effect on their self esteem. Kanoa and Clyde will demonstrate how easily and permanently these phobias can be removed and the resulting relief experienced! Any and all in the audience who choose to participate in this celebration will be welcomed!**

With their expanded awareness; eye movement techniques; recognition of their roots [and the roots of others] and the removal of their phobias the children’s natural enthusiasm for life returns joyously to the surface.

11:15 – 12:45 - **Lunch break**

12:45 – 2:45 – **“The New Children...Practical Strategies For Meeting The Challenges They Bring”**
- **PMH Atwater**

“The Greatest Talent of the New Children is their ability to abstract, which makes them appear wiser than they really are. For many of today’s children **the Greatest Weakness is Anger**: a peculiar kind of anger; that is impatient with anything inauthentic, not true or unusable.”...PMH Atwater

As anyone who has had the experience of enjoying PMH’s book “Beyond The Indigo Children” knows, PMH is a world renowned authority on this topic, coming not only from her years of study and research, but also from the clear fact that she herself has demonstrated many of the traits of today’s children since her own childhood, and is clearly “one of them / us”. Who better then to take us through this brilliantly contrived and practical presentation?”

To Understand The Children’s Anger: Dr. Atwater will take us through the “March of Generations” and the “Energy Signatures” of each generation.

She will then offer **Specific Suggestions** on how to turn these frustrations around in a positive manner. School Issues will be discussed, including “The Miracle of Perth, Australia”, to what society must recognize about school curriculums.

Various other issues will be tackled in this presentation, including:

- The children’s draw to the astral and the challenge they face with intervening energies;
- How easily they can be manipulated for a “cause”;
- Their puzzling “learning disabilities “ will be reviewed from various perspectives;
- The lure of “Virtual Realities” and the danger that represents,
- Plus **Many More Issues** that will be addressed in this **Direct and Solution Specific Presentation**.

2:45 – 3:15 – **Break**

3:15 – 4:45 - **“The Children of Now”**

- **Dr. Meg Blackburn Losey Ph.D.**

For those who have never heard Dr. Meg before, get ready to be enthralled as she weaves a tapestry of understanding the evolutionary traits of today’s children being seen worldwide in such large numbers... Meg will also offer practical coping skills for parents, caregivers, teachers and the children themselves

- **WHY** are there so many misdiagnoses of **ADD** and **ADHD**?
- **IS AUTISM** really on the rise or is something much greater happening here?
- **WHY** are so many children becoming sick with no apparent cause?
- **WHY** are some of the children falling into negative behavior?
- **HOW** can we help the children at home, socially and at school?

4:45 – 5:30 - ***“Inside the Hearts and Heads of the Children”***

- ***Sandy Newman***

In a lively and enthusiastic presentation, Sandy will share her Unique and Informative experiences working with “special needs” children. After a brief personal background Sandy will first teach us:

- How to create trust with these children
- How to understand their body language
- How to eliminate the “barriers” between them and us
- How to “level the playing field” with the children
- How to actually listen with our hearts and not just our heads

Next, Sandy will present the worldwide debut of her patented groundbreaking communication game:

“A Fist Full of Coins”

She will explain how this revolutionary approach affects the workings of the children’s brain; along with supporting research; and the applications of the game for Therapists, Teachers, Parents, and, most of all, for the Children.

5:30 – 7:00 - ***Supper break***

Bonus Session!!

7:00 – 9:00 - ***“The Near-Death Experience ... Going Beyond The Myth”***

- ***PMH Atwater***

This Dramatic presentation will alter your perspective on these experiences forever, giving you knowledge which has never previously been presented so clearly in this type of setting!

Today, Near-Death studies are the ***Premier Choice for Scientists*** around the world to examine consciousness itself --- what it might be and where it resides. As one of the pioneer researchers in the field, Dr. Atwater is well qualified to discuss near-death experiences on a level that few others in the world today can! She states that: “The days of the ‘Moody Miracle’; The ‘Light at the end of the Tunnel’ and the ‘Religion of the Resuscitated’ are over.” “We now know that what was once considered as ‘paranormal’ events are now considered to be typical and normal to the experience; valid components of life and death and the greater aspects of what makes us both human and divine.”

In this truly gripping, enlightening and practical presentation, PMH Atwater will discuss:

- The four types of near-death experiences that children talk to her about
- The unusual challenge that such experiences present to our children
- Explain to us the physiological and psychological after-effects of such experiences on our children
- Review the different “lights” people encounter in these situations

PMH’s newest Book...

“Near-Death Experiences: The Complete Sourcebook”

will make its debut in Calgary at this conference. This is a dynamic “encyclopedia” giving an easy reference to the very latest information on near-death experiences. Complete with drawings, cartoons and sidebars, this publication is the perfect read for today’s “busy” world.

Sunday, September 16, 2007

8:30 – 8:45 – *Welcome*

8:45 – 10:15 – *Deepest Fears and Self Limiting Beliefs Gone Forever*
- *Kanoakalani and Keolamaikalani*

How beneficial would this be if our children could accomplish this?
How beneficial could it be if **YOU** accomplished this?

To understand how these techniques apply to help our children you will be given this unique opportunity to observe and experience them firsthand.

If we truly want to connect from and to the hearts of our children then we need the tools to do so.

Kanoa has successfully implemented these techniques, which are a **Masterful Blending of Recognized Science and Spirituality**, to hundreds of children, their parents, caregivers and teachers throughout the U.S. Mainland; Hawaii; and India.

This is, however, the **FIRST** time it has been presented to a Gathering of this size anywhere in North America.

One of the techniques you can experience, **Ho'Oponopono** has been successfully presented to the **United Nations** and has been implemented in many conflict situations and even prison systems as a genuinely effective and powerful tool for inner peace and ultimately **World Peace**. We are, therefore, proud to offer you an opportunity to be a part of this Totally Engrossing; Energizing; Deeply moving; Informative and Potentially Life-altering Presentation.

Kanoa and Keola will guide us quietly through the process of clearing our **Deepest Fears and Limiting Beliefs** so that each of us can truly feel deserving of all of the gifts that life has to offer us. In **Hawaiian Culture**, to work on one is to work on many, therefore as Kanoa works with one volunteer on stage, we simply ask that each of us close our eyes and focus as though he were talking to us specifically.

This is not "Show and Tell". Simply follow the instructions mentally and internally if you choose to do so.

Next we will transition into the Ho'Oponopono, the Hawaiian Protocol which allows each of us to quickly and gently find or achieve Forgiveness for ourselves or others if we choose to do so. We can learn how to Forgive and NOT forget!

As you come to understand these experiences yourself you will be left in no doubt as to their potential for the children. Again, this does not require public sharing in any form, simply your calm focus and intent.

Out of respect for the content of this presentation, the presenters and the audience, we will NOT be videotaping this presentation.

We further ask for your cooperation and understanding in our request for all in attendance to be SEATED AT LEAST 15 MINUTES PRIOR TO THIS SESSION, so that each one may have the time to reflect on what they wish to "clear" privately and quietly. Those who arrive late will be respectfully requested to remain at the back of the venue room so they may gently join with the individual and group energy as it builds during this presentation.

10:15 – 10:45 – *Break*

10:45 – 11:30 - ***“THE CHANGING CLASSROOM” - Adapting teaching to reach the New Generation of Children*** - ***Amanda Amundrud***

The program known as Healing Touch has been implemented in Scandinavia for a few years now. Consistently documented results have been stunning increases in child learning and cooperation with each other plus a marked decrease in examples of negative behaviors, such as bullying [sometimes 100%]. Thankfully this system is gradually finding acceptance in the U.S. with several pilot studies underway.

However, in addition to this wonderful shift, many innovative young and enthusiastic educators are developing their own programs intuitively with the support of school boards, parents and colleagues. These teachers are completely dedicated to the wellbeing of the children in their care and will creatively walk the extra mile consistently to provide the optimum learning environment in every way.

Amanda is one of those precious few, and today she brings her unbounded passion and vitality to our gathering to **Discuss and Demonstrate** the values of topics such as: **Meditation; Healing Touch Techniques; Yoga; Tai Chi and Music such as Didgeridoo.**

The necessity to provide [and how to set up] an Enriched Learning Environment will be shown along with live heartwarming footage of some of her work, and Testimonials from Behavior Consultants, Teachers and Parents who have had the pleasure of experiencing the “Amanda Approach! “

11:30 - 12:15 – ***“Life as an Indigo Child”*** – ***Natasha Vanborg***

A truly delightful, charming, disarming, and engaging young woman, Natasha’s insights and experiences will educate and energize all in attendance. In this, her first public appearance in several years:

Natasha will share with you:

- Her earliest **awareness of her abilities**
- The **difficulties she encountered** in the **educational** and **social environments**
- How vital the support of an **understanding parent** was to her self belief
- How she came to meet and eventually interact with **James Twyman**
- Natasha will give her advice to other Indigo’s and, in fact, all of us, in **how** best to **approach the present and the future**
- Natasha will also answer some impromptu questions from the audience.

12:15 – 1:45 – ***Lunch Break***

1:45 – 3:15 - **“The Anatomy of Joy “ - Dr. Meg Blackburn Losey**

Our children ask us or make statements like:

- “ I Don’t Fit in ... I Don’t Feel I Belong “
- “How can I KNOW that I am not alone in this world?”
- “Will I ever feel really happy?” (They are really asking “What is my relationship with creation?”)

Tough questions which leave many of us groping for answers as we don’t know the answers ourselves!

Prepare to be enthralled as you discover the power to answer these questions!

Dr. Meg will teach you an effective tool you can teach children (and may even allow yourself to benefit from)! As Meg states: “We will explore how consciousness works and how we can intentionally use our desires to create our experiences, and to step into our true / authentic power. The result is a life filled with magical reality as we intentionally create it, and the Joy then follows from living the genuineness of who we are!”

Don’t miss this special time as Dr. Meg not only explains how it works, but shows you how to get there, with “Movement To Spirit”, a fun and easy exercise that returns participants to Higher Conscious Awareness ! The Children LOVE this exercise!!

3:15 – 3:45 – **Break**

3:45 – 5:15 - **“The Wizard of Oz” Helping the Children Find The Road Home” -Phil Gruber**

In the words of author Tim Robbins, “It’s never too late to have a happy childhood!” In this truly enthralling climax of our time together we are all enthusiastically anticipating the captivating intelligence, sparkling wit, passion and enthusiasm of the world recognized authority on today’s children that is Phil Gruber.

“L. Frank Baum wrote the Wonderful Wizard of Oz as a modern day “wonder tale” for the “golden child” within each of us. Dorothy’s adventures in Oz echo a journey many of your children are on today, the quest to return home.

Now, before you return to your homes after this weekend, PLEASE join me on this journey down your own “yellow brick road”; your own personal spiral of perfection, to align with the golden child within us all and return to “The City Of Emeralds”... this is an essential key to your children’s healing and continued growth”

Love, Phil

“There are few people on the planet with a mind as keen as Phil Gruber’s ...there is something in his teachings that is truly rare and marvelous” ...

James Twyman

5:15 – 5:45 – **Question / Answer Panel**

5:45 – 6:00 – **Conference Closing**

We will end this Celebration of Hope with closing remarks from Nan and an Ancient and Powerful Hawaiian Blessing for all in attendance from Kanoa and Keola.
